

Digital Health Scientific Symposium 2026

(In partnership with Academy of Digital Health Sciences)

Abstract Submission Format & Guidelines:

Email for Submission:

office@globalsummit.health

Word Limit: Up to 300 words

Eligibility: Submissions are welcome from researchers, professionals, and scholars from all domains related to healthcare and digital health.

Types of Submissions Accepted:

- Original research papers based on primary or secondary data (having new insights)
- Policy analysis articles
- Editorials with significant evidence-based perspectives (must follow a research-backed approach)

The Scientific Committee encourages submissions that demonstrate real-world relevance, innovation, and evidence-based insights, regardless of whether the data is primary or secondary.

Symposium Scope & Topics:

We invite submissions of high-quality, original research papers that explore transformative ideas in Digital Health. Topics include, but are not limited to:

AI in Clinical Care

- AI-Augmented Clinical Decision Making
- AI-Powered Diagnostics & Early Detection
- Precision Medicine & Personalized Care

- Multimodal AI in Healthcare
- AI in Critical Care & Emergency Medicine
- AI in Chronic Disease Management

Generative AI in Healthcare

- Large Language Models (LLMs) in Healthcare
- Generative AI for Clinicians
- Ambient AI & Clinical Documentation
- AI Agents & Autonomous Healthcare Workflows
- Generative AI for Medical Education & Training
- AI-Powered Knowledge Management

AI in Hospitals & Health Systems

- AI-Enabled Smart Hospitals
- AI for Hospital Operations & Resource Optimization
- AI for Workforce Productivity & Burnout Reduction
- AI in Quality Improvement & Patient Safety

AI for Nursing & Allied Health Professionals

- AI-Augmented Nursing Practice
- AI for Allied Health Workforce Transformation
- AI-Powered Clinical Training & Simulation
- Future Skills for Healthcare Professionals in the AI Era

AI in Pharmaceutical Sciences

- AI in Drug Discovery & Development
- AI-Driven Clinical Trials
- AI for Pharmacovigilance & Drug Safety
- AI in Medical Affairs & Scientific Communications
- AI for Regulatory Intelligence & Compliance

AI for Public Health & Population Health

- AI for Disease Surveillance & Outbreak Prediction
- AI for Public Health Decision-Making
- AI for Rural & Underserved Communities
- Population Health Analytics & Predictive Intelligence
- AI for Health Equity

AI for Patients & Consumers

- AI-Powered Patient Engagement
- Virtual Health Assistants & Digital Humans
- AI in Mental Health & Wellbeing
- AI for Behaviour Change & Preventive Care
- AI for Remote Monitoring & Home Healthcare

AI in Diagnostics

- AI in Radiology
- AI in Pathology
- AI in Genomics & Precision Diagnostics

- AI in Ophthalmology
- AI in Laboratory Medicine

Responsible & Trustworthy AI

- AI Governance in Healthcare
- Ethical AI & Responsible Innovation
- Explainable AI in Clinical Practice
- Bias, Fairness & Transparency in Healthcare AI
- Cybersecurity for AI-Powered Health Systems

Emerging Frontiers

- AI & Digital Twins
- AI-Powered Robotics
- Agentic AI in Healthcare
- AI and Longevity Science
- Quantum Computing & AI for Healthcare
- Future of Healthcare in the Age of Artificial General Intelligence (AGI)

Abstract Submission Format:

1. Title of the Research

Enter a concise and descriptive title. (that you shared with us)

2. Theme/Track

Mention the relevant theme from the list below: (mentioned above)

3. Year the Work was Undertaken

Indicate when the research or analysis was conducted.

4. Target Population or Beneficiaries

Specify the community, population group, or sector addressed in your work.

5. Author(s) Information

- Full Name(s):
- Designation(s) & Organization(s):
- Email(s):
- Contact Number (Lead Author):

Paper Submission Content (Within 1,200 Words)

a) Background & Objectives:

- Brief context and goals of the research.

b) Methodology:

- Describe the research design, data sources (primary or secondary), and tools/technologies used.

c) Key Findings & Results:

- Summarize the core findings and evidence generated.

d) Conclusion & Impact:

- Conclude with implications, learnings, and real-world or policy-level impact.

7. Author(s) Information

- Full Name(s):
- Designation(s) & Organization(s):

- Email(s):
- Contact Number (Lead Author):

8. Declaration

I/We declare that this submission is original, unpublished, and does not violate any copyrights. All sources have been acknowledged where applicable.

Signed (Lead Author) Date:

Please Note:

- All submissions will be reviewed by the Scientific Committee.
- Top 3 research submissions will receive cash prizes and certificates from the **Academy of Digital Health Sciences**.
- Top 3 papers win: INR 50,000 | INR 30,000 | INR 20,000
- Final selection notifications will be sent by **end of August 2026**.
- Selected participants will be invited to **present their work** before the **Scientific Committee** during the symposium. Presentations will be evaluated for **innovation, relevance, evidence strength, and potential for real-world impact**.
- All submitted abstracts will be reviewed by the Scientific Committee, and selected authors will be notified upon approval for paper presentation.
- PowerPoint Presentation – up to 7-8 slides based on your creativity (no particular template).
- **If your submission is accepted, you will be eligible for a 50% discount on the special delegate pass for the summit.** Original price – INR 10000 + taxes Offer price – INR 5000 + taxes
