## Digital Health at Scale - Success Stories

Jio World Convention Centre,  
Mumbai, India

4<sup>th</sup> & 5<sup>th</sup> October 2024

# About Us

---

The Global Digital Health Summit is amongst the biggest health summits in the region, and serves as a convening platform for global leaders, practitioners and solution providers to discuss, demonstrate and set the direction for Digital Health. The summit provides a matchless platform to showcase cutting-edge technologies and facilitates discussions among the industry CEOs on large-scale deployment of these technologies.

This year, the theme of the summit is 'Digital Health at Scale: Success Stories'. The summit will be attended by nearly 2000 leaders across the globe.

The attendees include top clinician leaders, the CEOs from the pharmaceutical companies, hospitals, MedTech companies, and senior government officials and diplomats.

# Key Highlights

First ever global summit to have a robot as a panelist

---

99.99% of the attendees rated the 2023 summit as "Outstanding"

---

2604+ registrations from 35+ countries

---

Keynote presentations from renowned experts

---

Engaging panel discussions on the latest trends, opportunities and challenges in Digital Health

---

Exhibition for showcasing groundbreaking technologies and solutions

---

Networking opportunities with global industry leaders

---

Innovation Awards to recognize the achievements made in Digital Health

---

## Who can attend?

- Practicing Doctors
- Hospitals/Clinics
- Small Healthcare Organizations
- Allied healthcare workers
- Patients
- Pharmaceutical Companies
- Research & Development
- Insurance
- Medical Devices
- MedTech
- Management Consultancy & Strategy
- Students
- Academicians/Researchers
- Government
- Multilateral bodies
- Donor
- Investors
- Software
- Information Technology Services

# What are we addressing through this summit?

---

## For Patients

- How is Technology democratizing healthcare and medical information?
- How comfortable are patients with using Technology?
- Do patients prefer technology-enabled products and services, and what does it mean for doctors, pharma, Medtech, and hospitals?
- How do we address the misinformation in the digital age?
- How will the initiative of the Patients' Union of rating and ranking of doctors and hospitals help improve the quality of care?

## For Doctors

- Are Patients more informed than Doctors? In the age of social media, do patients know more than you about technology solutions in your field of practice?
- What is the future of medicine?
- How can you leverage Technology, and where can it be deployed in your practice?
- Where do you start, and how much should you invest?
- Dos and Don'ts in technology adoption.
- Is Technology creating a new class of KOLs? Success stories from doctors across India- The New Age KOLs

## For Pharmaceutical Companies

- How are patients evolving, and what are the expectations of patients from the industry?
- How are the doctors evolving, and how are the Rx habits changing?
- How is the pharmacy retail landscape changing?
- Where can the pharmaceutical industry leverage technology across the value chain, and what are the use cases for the pharmaceutical industry?
- Will Technology lead to redundancies and layoffs in the pharmaceutical Industry?
- Generics have made India the pharmacy capital of the world; will this last for long? What is the next big opportunity for pharmaceutical companies to retain its leadership position?
- Is 'Direct to Patient' the future? How can the pharmaceuticals leverage the DTC- DTx, Digital Twins, and gaming?

## For Hospitals: The Opportunities are unimaginable

- Patients are changing. How does it impact the hospitals, and how can they prepare for this opportunity?
- What is the future of surgery and CDM?
- How can hospitals grow beyond beds?
- Why are hospitals getting acquired, and what is the future of small and medium hospitals?
- Where and what technologies can hospitals leverage?
- How will insurance and HMOs change the rules of the game for hospitals?

## For MedTech

- Will companies into hardware last this decade? What can they do to be future-proof?
- How are start-ups disrupting the status quo?
- What does the future hold for Med-Tech, and will Med-Tech become a significant factor in driving down the cost of care?
- What can the government and regulators do for Med-Tech?

## For Regulators and Policy Makers

- Will regulations kill Innovation and start-ups?
- How do we balance regulations for safety and still incentivize Innovation?
- Are we going overboard on regulating AI?
- Is the age of Technology redefining the role of regulators and policymakers?
- How can all stakeholders work together as an Ecosystem?

## For Artificial Intelligence and Automation

- Is AI clinical grade?
- Where can AI be deployed immediately?
- Ethics, AI & Automation
- How can you become an "AI-First" professional/Company?

# Exhibition

Global Digital Health Summit Expo features the latest and most innovative Digital Health products, services, and solutions from around the world.

Exhibiting at our Expo provides you a unique opportunity to connect with a diverse range of attendees, including healthcare professionals, entrepreneurs, investors, and potential customers.
